Kutu Etiketi ve Kutu Üzeri - Kalibre (Boyut) Bilgisi

Seramik Sanayiinde kullanılan hammadelerin ve işletme şartlarının değişkenliği (Fırın sıcaklıkları, pres basınçları vs.) sebebi ile çıkan seramiklerin boyutları aynı değildir. Bu sebeple müşterilerimize ürünlerimizi sunmadan önce otomatik makinalarımızda boyut yani kalibre ayrımı yapılmaktadır. Döşenilen üründe boyut sorunu yaşanmaması için mutlaka kutu etiketleri veya kutu üzeri bilgilerindeki kalibre bilgileri aynı olan ürünlerden alınmalıdır. Farklı kalibrelerde döşeme zorunluluğu oluşması durumunda, aynı mekanlarda kullanılması tercih edilmemelidir.

Calibration (Size) Information On Boxes and Labels

Ceramic tiles have size differences due to raw materials used in the industry and alternation in the condition of production plant (Press pressure, Kiln temperature etc.). Because of this condition, automated machines sort different calibers before presenting our products to customers. In order not to have size problem while installing, it's mandatory to use items of same calibration, which can be found printed on boxes or labels. In a situation where different calibrations have to be used, it's advised to use them on separate spaces.

Kutu Etiketi ve Kutu Üzeri - Renk Tonu (Tonalite) Bilgisi

Ürünlerimizin üretimleri esnasında oluşabilen ton farklılıklarını karıştırmadan ayrı paletler halinde müşterilerimize sunmak adına ürünlerimizde kutu etiketleri üzerinde renk tonu olarak belirttiğimiz aşağıdaki renk tonu sınıflama sistemini uygulamaktayız. Ürünlerinizi teslim aldığınızda kutu etiket veya kutu üzeri bigilerindeki üretim tarihlerinin ve renk tonu sınıflarının aynı olmasına dikkat ediniz.

Colour Tone (Tonality) Information on Boxes and Labels

In order to separate variety in color tones, which happened during production, and present to our customers with pallets that are packed as sole tonality for each pallet, we put tonality classification information on boxes and labels as explained in detail below. When you receive your products, please check the production dates and tonality classification printed on boxes and labels.
